RAGNANG-NEWENDE YANIS AXEL DABO

Software Engineer : Backend · DevSecOps & Platform · Artificial Intelligence

y4nn.dev@gmail.com | +226 67 26 08 83 | Gounghin, Rue 9.08, Ouagadougou, Burkina Faso | GitHub | LinkedIn | Portfolio

PROFILE

Software engineer with experience covering the full development lifecycle, from design to production. I build and secure web services and APIs, set up DevSecOps practices to automate, secure and stabilize deployments : as well as internal tools that simplify the work of development teams, and I integrate artificial intelligence when it is needed and where it truly matters.

PROFESSIONAL EXPERIENCE

Aïobi | Full Stack / AI Developer

March 2026 – Present

Ouagadougou, Burkina Faso

- Development and evolution of applications integrating artificial intelligence features.
- Contribution to defining technical architectures, code reviews and continuous improvement of software quality.
- Setup and maintenance of automation processes, CI/CD pipelines and deployment environments.
- Collaboration with infrastructure and security teams to improve application reliability and security.

BiT Solutions | Software Engineering Intern

May 2025 – June 2025

Bavaria, Munich

- Supported the engineering team through feature development and source code refactoring.
- Built backend APIs and automation tools based on JavaScript and Python to automate internal processes.
- Designed and developed a mobile app testing automation prototype integrating cloud-based artificial intelligence capabilities to improve validation workflows.
- Used Supabase for data management, real-time updates and migration scripts.
- Gained hands-on experience with DevOps processes, including GitHub Actions workflows and CI/CD pipelines.

Freelance | Full-Stack Developer

2023 – 2025

Ouagadougou, Burkina Faso

- Designed and developed custom web platforms for NGOs, media companies and SMEs, with a backend-first approach and full-cycle ownership (requirements analysis, UI integration, backend implementation, deployment).
- Led a complete overhaul of the GiveMeALift platform: migrated from a WordPress site to a modern, scalable custom CMS.
- Freelance consultant for FIKASSO, responsible for technical architecture design and delivery of custom software solutions.
- Built command-line tools and developer-facing applications to automate repetitive tasks.

EDUCATION

Burkina Institute Of Technology | Ouagadougou, Burkina Faso

October 2023 – December 2026

Bachelor's Degree in Computer Science, Programming

Groupe Scolaire Saint Viateur | Ouagadougou, Burkina Faso

October 2019 – June 2022

High School Diploma, Mathematics and Natural Sciences

SKILLS

TECHNICAL

PROGRAMMING LANGUAGES

Low-level
C

High-level
Python, JavaScript, TypeScript, Go, Java, Bash

DESIGN

Modeling & diagrams
UML, C4 Model, Flowchart

Diagrams as code
Mermaid, PlantUML

APPLICATION DEVELOPMENT

Frontend Frameworks
React, Next.js, Flutter

Backend Frameworks
Node.js, Express, FastAPI, Flask, Laravel

DEVSECOPS & PLATFORM

Systems
Linux (Ubuntu, Pop!_OS, Parrot OS)

Containerization & orchestration
Docker, Docker Compose, Kubernetes

Automation & deployment
GitHub Actions, GitLab CI, Travis CI

Security
Vault, Teleport, WireGuard

Observability & monitoring
Prometheus, Grafana, Loki, GlitchTip

ARTIFICIAL INTELLIGENCE

Frameworks & platforms
LangChain, OpenAI Platform, Hugging Face, TensorFlow, Google AI Studio, OpenRouter

Models & local execution
Ollama, llama.cpp

Vector databases
ChromaDB, Pinecone

Experimentation
Jupyter Notebook, Google Colab

DATA

Relational databases
PostgreSQL, SQLite, SQL

NoSQL & local storage
MongoDB, Supabase, IndexedDB

TOOLING

Development
Git, VS Code, Neovim, Zed, Claude Code, Codex, Hermes

API Testing
Postman, Bruno

Web / E2E Testing
Playwright

Mobile App Testing
Maestro Studio

SOFT SKILLS

Thinking & problem-solving
Problem-solving, Critical thinking, Creativity and innovation

Work approach
Autonomy, Rigor, Adaptability, Continuous learning

Collaboration
Communication, Leadership, Teamwork

Organization & knowledge-sharing
Project management, Time management and prioritization, Teaching and knowledge-sharing

LANGUAGES

Mooré : Native language | **French** : Fluent | **English** : Advanced, both spoken and in a professional setting

PROJECTS

Audex (Private) — Python, YOLOv8, Llama, OpenCV, TypeScript, React, PostgreSQL
Web application that automates safety audit analysis for sensitive sites, combining computer vision, multimodal LLMs and business rules to generate structured, traceable reports within minutes.

WiseMoney *Source Code · Live* — TypeScript, Go, React, PWA, IndexedDB
Personal finance web app for managing accounts, tracking transactions, budgeting, and generating AI-driven insights.

7review *Source Code · Live* — Go, Python, Docker
Automated code review agent for GitHub pull requests and GitLab merge requests: enriches context via SCM metadata, draws on repository memory and skills, reviews changes with configured AI models, then validates and publishes pending human approval.

GlexTalent (Private) *Live* — TypeScript, Python, FastAPI, React
Recruitment and talent management platform that facilitates matching between companies and candidates.

Tenglaafi *Source Code* — Python, FastAPI, JavaScript, ChromaDB, LangChain
RAG-based medical assistant that retrieves and explains information on tropical diseases and medicinal plants.

Y7-Jprompter *Source Code · Live* — TypeScript, Next.js, React, Gemini 2.0
Web app that converts natural language prompts into structured JSON via AI.

Givemealift CMS *Live* — Laravel, Vue.js, Inertia.js, MySQL
Custom CMS built to replace a WordPress site and simplify content management for an NGO.

CERTIFICATIONS

- Python Fundamentals (Great Learning)
- JavaScript Fundamentals to Advanced (Udemy)
- Introduction to Software Engineering (IBM x Coursera)
- IBM DevOps & Software Engineering (in progress)
- IBM Backend Development (in progress)
- IBM Full-Stack JavaScript Developer (in progress)

AWARDS

- 1st Prize, ONEA AI Hackathon (2026)
- 3rd Place, Digital Week AI Hackathon (MDCPE, 2025)
- 2nd Prize, Aïobi AI Hackathon (Certificate of Excellence, 2025)
